## **Ideal POS Systems - Point of Sale**

Touch Screen Point of Sale (POS) Software that provides a powerful solution for the modern retailer, cafes, bars, restaurants and food outlets, allowing you to operate efficiently and increase both customer service and business profits. Our Ideal POS Systems have helped many companies increase their business profits and sales.

### **Why Ideal POS System?**

Our Ideal POS Systems are fully integrated and modular in design, with easy to use touch screen. POS system is also stable and dependable with offline capability. This ensures your POS System will continue to operate so you can still serve customers in the unlikely event of a malfunction. It is hardware independent, which operate on Windows XP or Vista and interfaces to an extensive range of peripherals including scanners, scales, customer pole displays and EFTPOS.

The above are only some of the reasons why our Point of Sale (POS) Systems are ahead of others in the market. Browse through specific industries we serve to know more about our POS Systems.
